Ref.: Illegal Membership of Germany in the UN
Conspiracy against Germany and Europe

Ladies and Gentlemen,

under the title Membership I found the following entry on the internet site of the UN:

„Germany

The Federal Republic of Germany and the German Democratic Republic were admitted to membership in the United Nations on 18 September 1973. Through the accession of the German Democratic Republic to the Federal Republic of Germany, effective from 3 October 1990, the two German States united to form one sovereign State.”

After my knowledge this entry is not true, because the historical fact is that Germany since May 1945 is nothing but a zone of occupation of the allied victorious powers. In short: since 1945 Germany has never been a sovereign State or a Democracy until 2021. I cannot believe that a state without sovereignty can become a member of the UN.

The evidence for this declaration is easy to show, if you please have a look on the attached copy of my letter to the International Court in Den Haag/Netherlands from 20th August 2021 showing the declarations of war against Germany from 1933 to 1945 in English and German language.

Since I got no answer at all from the International Court in Den Haag, and you write in the final file of Helsinki 1975 „Sovereign equality, attention of the rights pertaining to sovereignty” I thought that this is just a case for your responsibility as a guardian of truth and right.

I would like to receive a note of receipt of this letter within about 4 weeks. Thank you very much for your attention. May the Godhead bless your decisions.

Sincerely,
Dieter Rüggeberg
